-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Response to Amendment***

1. Applicant has appointed an attorney or agent to conduct all business before the Patent and Trademark Office. Double correspondence with an applicant and applicant's attorney or agent will not be undertaken. Accordingly, applicant is required to conduct all future correspondence with this Office through the attorney or agent of record. See 37 CFR 1.33.

***Information Disclosure Statement***

2. The information disclosure statements filed 06 December 2007 and 20 December 2007 have not been considered. Applicant has appointed an attorney or agent to conduct all business before the Patent and Trademark Office and therefore all documents need to be submitted to the Office through the applicant's appointed representative. The information disclosure statements would be considered if resubmitted by the applicant's attorney or agent of record and no further fees would be due.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Buchanan US 1,234,279.

5. Buchanan discloses a Chewing-bag (cartridge) made out of textile (linen fabric) and having an opening on one side (tubes), for enabling chewing of a herbal material (tobacco), the textile being not unpleasant to hold in the mouth (absolutely tasteless), being strong enough to chew on (withstand the grinding produced by chewing), having a structure that holds back pulp (encased) of the herbal material but lets through liquid and dissolved substances released therefrom (porous in nature) (page 1, ln 45 – 72).

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Derr US 6,162,516.

7. Derr discloses a Chewing-bag (pouch) (col. 9, ln 25 – 26 and col. 10, ln 36) made out of textile (cloth) (col. 9, ln 11) and having an opening on one side (fig. 4, 7, 8, 9, and 10) for enabling chewing of a herbal material (tobacco) (col. 9, ln 23 – 39 and fig. 9a). The Chewing-bag is not unpleasant to hold in the mouth (almost unnoticeable by the user, while in the mouth) (col. 6, 6 – 7) and has a structure that holds back pulp of the herbal material but lets through liquid and dissolved substances released therefrom (col. 9, ln 23 – 39). Further since said bag is made out of textile (cloth) and is designed to contain the herbal material in the mouth of a users it would be inherent that the bag is strong enough to chew on.

### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Berry, Sr. US 5,364,348 discloses a bag structure comprised of a fine cotton mesh material that would be able to contain herbal materials and allow for chewing said bag while retaining said material and allowing liquids and dissolved

substances to be released therefrom. Linden US 4,607,479 discloses a chewing-bag made from a textile material containing a herbal material which is filled from an opening on one side. Lambert discloses a chewing bag which contains non-tobacco herbal material for chewing in the mouth.
